Elsy Studios Hires New Senior Project Manager

Campbell Lloyd Brings More Than 20 Years of Experience to Leading Design Firm

DENVER (Jan. 16, 2018) – Elsy Studios, a Denver-based full-service commercial interior design firm, recently welcomed Campbell Lloyd as its newest senior project manager. Campbell will be responsible for creating a seamless project management experience while delivering designs that elevate expectations of the work environment.

“Campbell’s attention to detail and range of experience as both a designer and project manager make her the perfect addition to our growing team,” said Lynn Coit, president of Elsy Studios. “Her ability to work closely with clients to successfully see projects of all kinds – from large corporate offices to restaurants – through from the design phase to completion will strengthen our ability to help clients make their workplace design goals a reality.”

Campbell offers more than 20 years of experience in the commercial interior design and architecture industries, with expertise in everything from project management and client development to design leadership and project budget management. Prior to joining Elsy, Campbell was a project manager and lead designer at BOX Studios, an architecture, interior design and real estate planning firm. She also served as the primary interior designer for 10 years at Sink Combs Dethlefs, a Denver-based sports, recreation and entertainment architecture firm.

Campbell has a Master of Architecture from the University of Colorado Denver and a Bachelor of Fine Arts in Interior Design from the University of Georgia.
