Elsy Studios Picks Up Accolades from the American Society of Interior Designers

DENVER (July 30, 2015) – Denver-based commercial interior design firm Elsy Studios received two awards for excellence in design from the American Society of Interior Designers (ASID) at the 17th Annual ASID Colorado Crystal Awards celebration on July 16, 2015.

The Crystal Awards honor organizations that have achieved excellence in interior design, and recognize hard work, talent and commitment. Elsy was presented

with the 2015 Crystal Award for Commercial Renovation for its work with Innovest Portfolio Solutions. The design firm also walked away with the Custom Design Elements Award for its work with Capital Value Advisors.

“These recognitions highlight the caliber of the team we’ve built here at Elsy Studios, as well as the customized experience we deliver to our clients,” said Lynn Coit, president and founder of Elsy Studios. “Being recognized by our peers in design is both an honor and a motivator for our entire team to continue pushing ourselves to always be learning and growing as professionals.”

Since it’s founding in 2012, Elsy Studios has quickly grown into a 10-person firm. In order to accommodate demand and future growth, the firm recently relocated to new offices to Denver’s Lower Highlands neighborhood. In addition to Innovest Portfolio Solutions and Capital Value Advisors, the firm has recently worked with companies such as SolidFire and Design Workshop.
